POETRY.

* THE DUEL .-- BY L. E. L. As to-morrow is fixed for the time of the meeting, And I know that Sir Richard has heart, nerve, and eye, Though I feel that no fear in my bosom is beating, I cannot conceal that ere noon I may die.

As Second, I've told you all thoughts of my bosom, Set forth all the secrets for which I can care, To your tried affection I safely disclose them, But I said not a word of one lock of brown hair.

This letter goes with me, you never will see it, Unless you too see me laid low on the ground; And the bullet, no matter how deadly may be it, Will fix on my heart but a second-rate wound. No note is enclosed, I have thrown away twenty, And to mention her name e'en to you I don't dare.

But I fear that for guessing you've reasons in plenty, To whom may belong that dear lock of brown hair. I cannot return it, 't would pain her I know it ; Perhaps, though I hope not, she'd think me untrue.

As the last proof of friendship, I therefore bestow it, The gem of my soul, my dear William, on you. And if I should fall, you will know where to send it ;

A lock of my own, with that darling lock bear. When the offering is made, let no message attend it, Only bind up with mine that one lock of brown hair, That you breathe not her name, I am safe in your honor But perchance she may speak—oh! then tell her that I, As during my life all my thoughts dwelt upon her,

Filled my soul with her thought as I sank down to die. My park and my halls to the law I surrender, Hounds, horses, and cellars, my cousins may share; To her I leave nothing—I only can send her,
With the blood of my heart, that one lock of brown hair

There are imagination, imagery, metaphors and metaphysics, mingled together in it in splendid profusion. All of it may be read with impunity, as well as profit, by those whose hearts and principles are right. TO THE WHIGS OF MASSACHUSETTS.

The position assumed by your delegates at the late Worcester convention deserve your most serious consideration. We say position, for their whole doings may be reduced to a single point-"opposition to the Baltimore nominations." Believing that some portion of your party are disposed to think and to decide for themselves, and that not a few have long been waiting for a favorable opportunity to shake off the fetters of aristocratic management and federal dictation, we would earnestly call your attention to the present condition of your party in Massachusetts.

The ostensible object of your leaders, as avowed at

the Worcester Convention, is opposition to the Baltimore nominations. Think you this is the real object ? If so, be no longer deceived. The opposition of Massachusetts to the democratic candidates for President and Vice President, cannot be, in a national point of view, so much as the dust in the balance. Not a single individual of respectable talents in your party has the remotest expectation of preventing the election of Martin Van Buren. Give your party leaders all they claim, and then add to this any one of the largest States in the Union, and still Mr Van Buren would have an overwhelming majority. If you doubt this statement, cast it up for yourselves; write down every state, and against each its constitutional number of electors, assign to Mr Van Buren only the States which your leaders have never ventured to claim, and you will see that the opposition of Massachusetts is designed for the accomplishment of an object not avowed by your leaders. Be satisfied on this point, and then ask yourselves if, as freemen, as patriots, as friends of republican institutions, you can longer, be the humble instruments in the hands of a few political hypocrites, to pander solely for their personal and individual aggrandizement? What then, may be asked, by a few sincere, honest Whigs, for a few there are, what is the real object of the opposition in Massachusetts? In a word, it is to keep the State government in the hands of its pre sent leaders. It is the office holders under the State administration who constitute the bone and muscle of this opposition. Look at it for a moment and you will see that every office, of every grade and character is filled by a strong and generally by a noisy advocate of modern whiggism. You will see that the cry of your Sunday at Home-By the author of the "Gentle leaders about "office holders," is a mere ruse to draw attention from themselves, and to create a false issue. It is the trick of the thief who raises the first and loudest cry, that he may escape amidst the confusion of his own creation. Compare the lenity of the General Government, with the proscription of Massachusetts in this particular. Look at the thousand offices in every part of the country filled by the opponents of the present general administration—the clerkships at Washington-the post offices in every part of the republic, and a multitude of other subordinate offices in every department, and then ask yourselves where lies the sin of proscription? Even in this State one of the most lucrative offices in the gift of the General Government is in the hands of a decided opponent of the administration. You can find no offset to this under the State Government of Massachuse ts, in which the power of removal is in the hands of the executive. There is indeed an exception, but no thanks to modern whiggism, that exception exists in spite of, not in accordance with, whig executive power.

But let us see what you are to gain by opposing the Baltimore nominations. Mr Webster is wholly out of the question. He can get the electoral vote of no State save Massachusetts, and even this is every day becoming more doubtful. State pride, then, can have no influence upon your votes. Three other candidates are in nomination. One, a decided, unwavering advocate for the doctrines and principles of the old Jeffersonian school, to which many of you were devotedly attached, in the days of that immaculate republican. Another, a political trimmer, a base apostate, a nullifier - one who has stood for, and against, the same measures almost in the same breath; and a third, an image of vanity personified, -a weak, superannuated old man, whose whole life has been a life of blunders, and whose death would only be felt by the sudden annihilation of so much impotency! The reflecting portion of your party cannot hesitate what course to pursue under these circumstances; nor would your leaders hesitate one moment were not their official existence at stake. They tell you, in fact, they care not whom you elect to the Chief Magistracy of the nation, providing it be some tame, truckling politician who will leave them undisturbed in their own stations, and who has

There is one feature in your party to which we particularly desire to call attention, and here we speak only to the honest, independent portion of it. We refer to the actual treatment which the great majority receive from the leaders. Is it not a fact that you are, on all occasions, basely neglected, except at the moment of an election? Are you, as a body, ever consulted in reference to measures or have any knowledge of them until they are cut and dried and presented for action? In fact, are you not tacitly regarded as the mere instruments in the hands of your leaders, by which their own objects are to be accomplished? There is not a whig in Massachusetts hardy enough to answer these queries favorably to his own independence. Come out theu,

You have only to look at the candidates in opposition to Mr VAN BUREN, to be satisfied of their unfitness for the station to which they aspire. The one an apostate without principle, the other an old man without capacity. You would be ashamed of your government in the hands of either. Come out, then, and show for once that your love for Casar is completely eclipsed SAMUEL ADAMS. by your love for Rome.

Copy-Rights of English Books .- It seems that the Harpers have announced that they have the Memoirs of Prince Lucien Bonaparte in their press, and nearly ready for publication. At the same time, Messrs Saunders & Otley, of Conduit street, London, announce that they have been appointed by the Prince of Canino the exclusive publisher of his " Memoirs" in England, France, and America. Hence, the last mentioned firm complain of the Harpers as being about to infringe on the privileges of their copy-right. Now it so happens, that by our laws, no English or American bookseller can claim the exclusive right of publishing the work of a British subject in the United States. No British or foreign author has, therefore, any power or authority to confer upon any individual or company the exclusive right of publishing and selling his works in this country. Were it otherwise, any English bookseller, upon whom the author saw fit to confer a copy-right of his work, might monopolize to himself all the profits of the sale of it throughout the United States, and English booksellers thereby grow rich at the expense of our own reading population. Copy-rights would be immediately secured of all valuable English publications by certain English booksellers-the price of such works would consequently be raised, so that thousands of our people, who now purchase and read such works, could no longer afford it, and very many enterprising publishers in the U.S. would be obliged to relinquish their business. We hope that no such innovation will be introduced into this country, an innovation which would serve greatly to diminish the circulation of English books, and would enable English publishers to drain the United States of millions of dollars, which at present serve to reward the enterprise of our own native publishers. Let free competition exist among our publishers, as it always has done, in regard to the works of English authors. And if there be any modification in our laws respecting copy-rights, let it be such as merely to indemnify the author, by granting him a certain per centage of the sale of his works in all cases, but without granting to any bookseller-English or American-the exclusive right of the publication.

Memoirs of Lucien Bonaparte, (Prince of Canino,) written by Himself. Translated from the intendence of the Author. Part the First. (From | the Police Office. the year 1792 to the year 8 of the Republic.) -New York : Saunders & Otley, Ann street, and Conduit street, London .- This work, from the pen of the brother of Napoleon, will be hailed with a hearty perusal by our countrymen, as containing a review of those remarkable events connected with the French Revolution which formerly so intently interested the public mind. The opinions of Lucien concerning the events which arose out of the career of Napoleon, cannot fail in interest, and must be very important in a political sense. When the Revolution opened, in 1789, Lucien entered his 15th year. Hence, he was, during the prime of his life, a witness of all its atonishing events. He remarks in the preface, that it is not for a personal end he has resolved to publish these memoirs, but because they appear to offer materials of some value to a history so fruitful in great events, of which the serious study may be useful to his country. The first part only is published. The publication of the remainder depends on the reception and favor which the present portion receives. This volume is neatly executed, and abounds in very many interesting particulars concerning the Bonaparte family, and the seenes and characters of Napoleon's time. There can be no doubt but its popularity will induce the author to give the remainder of his memoirs immediately to the public. At Light & Stearns's.

The great Picture of the Departure of the Israelites, will open during the week, at the Diorama, for a short time only. This Painting has been executed by Sebron and assistants, at Paris, in lieu of the one destroyed by fire at New York last year, and is spoken of as a chef d'œuvre of the triumph of art. The former Picture was beautifully executed, and the good taste of Boston was manifested by the visit of thousands a week to see it. The present view will no doubt be equally attractive.

is perfectly saie in its operation, and may be given to children or persons of the most delicate habit, without the least risk of inconvenience. The uniform success which has attended the use of it where

it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disin terested and highly respectable persons, affords, next to a trial of the medicine itself, the best commentary upon its virtues, and the best recommendation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who

had suffered severely from indigestion for three years. During this time, I suffered very much from mental depression, con stant pain in the head and breast, and side, sharp shooting painover almost the whole system—the food that 1 ate seemed to pass into my lungs and there remain, giving me great pain as tended with a strong degree of heat. At times, 1 suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks I was induced by the advice of a friend to try your Vegetable Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of any thing like indigestion or pressure on the stomach, to take about a table spoonful of it, which, in the course of a few hours completely restores me. It has had with me a very wonderful effect, in strengthening the stomach and invigorating the whole system, and judging by my own case, I consider it in all diseases connected with the digestive organs, to be a very valuable medicine.

It has been found singularly efficacious in cases of the most obstinate headache.

DR. BRANDRETH WANTS NO COLLEGE, NO INSTITUTION, NO MO
NOPOLY, NO CHARTER—HE BEING QUITE SAT
ISFIED TO REST ON THE PATRONAGE OF THE
PUBLIC FOR THE SUCCESS OF HIS GRANDFATHER'S VEGETABLE UNIVERSAL
PILLS—ESTABLISHED IN ENGLAND
IN 1751.
Science should contribute to the Company Health and Health

Science should contribute to the Comfort, Health and Hap piness of Mankind."

N the 18th of May, 1835, these now truly celebrated Pills were first made known in the United States, although in Europe they had been previously before the public nearly a century. The American public naturally viewed them with suspicion, but as on trial they were found what they professed, it was soon displaced by the greatest confidence. They have secured this character, too, under very adverse circumstances, having to contend with the base slanders promulgated by the state of error as rethose interested in keeping mankind in a state of error, as regards the functions of their bodies. Dr Brandreth would here impress on his friends and the public generally, that however different may be the action of the pills at different times, that such different action arises not from any alteration in the pills, but from the state of the body they should always be persevered in, until the action is uniform—for they always be persevered in, until the action is uniform—for they are an effectual assistant of nature, having the same kind of action on the human body that storms and hurricanes have on the air, or that the tides have upon the ocean—they purify. What so judicious as the copying of nature? We see when she wishes to become purified, that she puts herself in commotion, which has the purifying effect. And so we, to induce purity in our bodies, bring about a natural commetion by actificial means and the experience has taught those who by artificial means, and the experience has taught those who have adopted this course, and who for this purpose have used these pills, that they were in the right, because the result has been sound health, or in other words, every organ has become been sound health, or in other words, every organ has become restored to a state of purity consistent with its functions—and although there is many whose bodies are in such a state of debility and suffering, that all which can reasonably be expected is temporary relief—yet, nevertheless, many persons who have commenced with them under the most trying circumstances of bodily affliction, when every other means and medicine has proved altogether unavailing, have been restored to health and happiness from their use—and the consequence is, they are now recommended by thousands of persons whom they have cured of Consumption, Influenza, Indigestion, Dyspepsia, Headache, Pans, and a sense offul ness in the back part of the head, usually the symptoms of Apoplexy, Jaundice, Fever and Ague, Bilious, Scarlet, Typhus, Yellow, and common Fevers of all kinds, Asthma, Gout, Rheumatsm, Nervous Diseases, Liver Comptaint, Pleurisy, Inward Weak-Nervous Diseases, Liver Comptaint, Pleurisy, Inward Weak-ness, Depression of the Spi its, Ruptures, Inflammation, Sore ness, Depression of the Spi its, Kupines, Inhammation, Sore Eyes, Fits, Palsy, Dropsy, Small Pox, Measles, Croup, Coughs, Whooping Cough, Quinsey, Cholic, Cholera Morbus, Gravel, Worms, Dysentery, Deatness, Ringing Noises in the Head, King's Evil, Scrolula, Erysipelas, or St Anthony's Fire, Salt Rheum, White Swellings, Ulcers, some of 36 years standing, Cancers, Tumors, Swelled Feet and Legs, Pites, Costiveness, all Eruptions of the Skin, Frightful Dreams, Female Complaints of every kind, especially obstructions, relaxations, &c.
8900 testimonials have been received from individuals of the highest respectability. Call at Dr B's store and read the original letters, all proving the extraordinary power of Brandreth's Pills in removing diseases of the most opposite character from the constitution. They in fact prove, by the cures they make, that there is no necessity for any other medicine. Although Dr B. has enumerated by name the above diseas-

es he is nevertheless of opinion with his grandfather, the celebrated Dr Wm. Brandreth, that there is only ONE UIS-EASE, an impurity of the blood, which by impeding the circulation, brings on inflammation, and consequent derange-ment in the organ or part where such impurity of the blood settles-and that it is the different appearances which this inflammation or derangement puts on, that have caused medical men to designate such appearances by various names, but which are in fact only the same disease, with more or less virulence. Dr Wm Brandreth was so fully convinced of the truth of the above simple theory, that he spent 30 years in experiment and laborious research into the medicinal properties of the numerous plants composing the Vegetable King dom-his object being to compose a medicine which should at once purify, and produce by specific action, a removal of all bad humors from the blood by the stomach and bowels, as by the continuation of the use of such a medicine, such hu-mors are sure to be carried off, and the blood assumes a state of purity—and whoever takes these pills, and perseveres with them, will be satisfied that Dr W m. Brandreth fully attained his philanthropic object. It is now an absolute and known fact, that every disease, whether it be in the head or feet, in the brain or meanest member-whether it be an out-ward ulcer, or an inward abscess, are all, though arising from many causes, reducible to this one grand effect, namely, impurity of blood.

In all cases they will be found a safe and simple remedy. yet all powerful for the removal of disease, whether chronic or recent, infectious or otherwise; and what makes them particularly adapted for this country, is that there is not the tlightest liability to cold when taking them-indeed, the systhey are invaluable. Neither do they require change of diet or care of any kind. In England, these pills have been the only medicine of many families for periods varying from forty to sixty years, and have always proved effectual in restoring health whenever an aberration from it has occurred.

In many cases where the dreadful ravages of alceration laid bare ligament and bone, and where to all appearance no human means could save life, have patients by the use of these ils, been restored -the devouring disease having been completely eradicated.

the dose not generally being required to be more than four or five pills, (merely keeping in view the drain upon the humors) they are fast superseding every other preparation of professed similar import. Cases may occur where it will be very proper to take twenty or even thirty or more pills—this must be considered with reference to highly inflammatory disease, or when great pain is experienced.

As Brandeth's Pills prevent Scurvy, Costiveness, and its consequences, seafaring men, and all travellers to foreign regions, should not be without them, in order to resort to on very occasion of illness. Time or climate affects them not.

Southern gentlemen will find this medicine one which will ensure health to the people on their estates. CANCERS-Several cases of cure can be referred to-the cure is certain, if perseverance in the medicine is used.

Consumption—Reference can be made to numbers who have been cured in New York and Brooklyn of this disease. For sale by B. B. MUSSEY, 27 Cornhili, sole agent of Dr Brandreth in Boston. Also, by Ives & Jewett, Salem-M. D. Philips & Co., Worcester-S. H. Colesworthy, Portland, Me.

VEGETABLE RHEUMATIC PILLS,-Rheumatism in all its varieties, is one of those disorders which requires the most particular attention. It is a very common complaint throughout the country, and ought to attract the attention of the medical faculty. It is a complaint for which there have been many remedies invented, (some very good) but these pills are now presented to the public, as a medicine, superior to any before offered, and will be found by all who make a fair to any before onered, and will be found by all who make a lair trial of them, to be the most efficient remedy for the following painful disorders, viz:—Rheumatism, both acute and chronic, Gout, Spasm, Cramp, and all those various rheumatic pains so often met with in the stomach, bowels, back, and limbs—they are also a powerful medicine for cleansing the blood of foul and viscid humors—likewise, in dropsical swelling in combination with rheumatic affections, as well as in greater, tropsy, they have an excellent effections a hydrographic general dropsy: they have an excellent effect as a hydrogogue cathartic—also, in doses sufficient for a mild operation, they are an invaluable remedy for the Files, as well as for all complaints caused by colds obstructing the circulation, and creating a foul and cankerous state of the blood. These rheumatic pills offered the public for trial, will be found, for common use, a most safe, effectual, and pleasant physic-being composed entirely of vegetable materials; they do not predispose the system to take cold, and may be taken at any time. They cause an appetite, assist digestion, and carry off crudities from the stomach. If on taking cold, a few of these pills are taken on going to bed, they will operate the next day, and carry off bad effects which might remain. The salutary effects of these pills in all of the above com-

plaints, having been thoroughly tested, they are confidently recommended to the public as an effectual remedy, if taken in due season, and the directions strictly adhered to.
Plain directions accompany each box.

Prepared by T. CORBETT, United Society, Canterbury, N. II. The formulaes of which are known and approved by the medical faculty of our country.

This may certify, that the subscribers have examined, by equest, the formula for the Vegetable Rheumatic Pills, made by Dr Thomas Corbett, of the United Society of Shakers, at Canterbury, N. H., and having compared it with that of the celebrated Dean's Rheumatic Fills, are of opinion, that the substitution of "extracts" in the former, for the vegetables in substance in the latter, with some other alterations, gives to his formula a decided preference as a mild efficient cathartic hertotore.
